Who We Are

Anushri Systech Private Limited, headquartered in Chennai, is a trusted provider of clean energy and power management solutions. Alongside UPS systems and stabilizers, we deliver end-to-end solar power systems designed for commercial, industrial, institutional, and residential clients seeking sustainable and cost-effective energy.

What We Do

- **Site Study & Energy Audit**

Assessment of load, rooftop space, shading, and energy consumption to size the right solar system.

- **Engineering & Supply**

Grid-tied, off-grid, and hybrid solar PV systems with premium panels, inverters, and balance-of-system components.

- **Installation & Commissioning**

Turnkey project execution with structural design, electrical integration, safety, and net metering support.

- **Operation & Maintenance**

AMC, periodic cleaning, performance monitoring, and 24×7 service support for long-term efficiency.

Why Anushri Solar

Energy Savings: Reduce electricity bills with clean, renewable power.

Sustainability: Meet green energy goals and reduce carbon footprint.

End-to-End Delivery: From system design to lifetime maintenance.

Scalable Systems: Solutions ranging from 5 kW to 1 MW+.

Proven Reliability: High-quality panels & inverters with 25+ years performance life.

Product Coverage

System Sizes: Rooftop (5 kW – 100 kW), Industrial (100 kW – 1 MW+)

Types: Grid-tied • Off-grid • Hybrid Solar Solutions

Components: Tier-1 Solar Panels

- High-efficiency Inverters
- Battery Storage (optional)

Protections: Surge, earthing, fault detection, remote monitoring

Industries Served

- Manufacturing & Industries
- Educational Institutions & Campuses
- Hospitals & Healthcare
- Commercial & Retail
- Hotels, Resorts & Hospitality
- Residential & Housing Societies

Post-Supply Commitment

- Performance Warranty on solar panels & inverters
- Annual Maintenance Contracts (AMC)
- Remote Monitoring & Reports
- Dedicated Service Engineers
- Onsite Support & Spare Availability
